

# PharmaConnect

## From Lab to Life – Engineering the Future of Pharma

### SAVE THE DATE

We cordially invite you to PharmaConnect in HCMC, a collaborative symposium bringing together global experts to explore current trends, innovations and challenges in the pharmaceutical sector. The program highlights key developments in advanced drug-delivery technologies, Annex 1-compliant sterile manufacturing, biologics and vaccine delivery, and the transition from laboratory concepts to commercial production.

Specialists from BD, Bausch + Ströbel, Glatt Engineering and Harro Höfliger will provide practical insights from their respective fields. Their presentations will address manufacturing strategies, fill-and-finish processes, risk-management considerations and next-generation delivery platforms. You will also have the opportunity to ask questions during our Q&A session or arrange a private 1-to-1 discussion after the event.

**The event is free of charge, including food & beverage.**

22<sup>nd</sup> April 2026 / 8:15 am – 4:00 pm

Le Méridien Saigon, 3C Ton Duc Thang Street,  
Sai Gon Ward, Ho Chi Minh City, Vietnam
